

Ingram Micro Cloud offers a comprehensive portfolio of cloud services designed to address the business needs of small and midsize businesses worldwide. Our portfolio encompasses both Ingram Micro-branded and hosted cloud offerings and solutions from market-leading providers.

Top-tier Solutions

Before we add a third-party solution to our portfolio, we perform a substantial vetting process which includes evaluations of product maturity, past successes/issues, vendor history and stability, and more.

Solution categories include:

Cloud Management Services: Includes remote monitoring and management (RMM), remote infrastructure management (RIM), mobile device management (MDM), help desk and other key IT service management solutions you need to run your cloud or MSP business.

Communications & Collaboration: Includes hosted email, conferencing, messaging and file sharing, as well as data and voice services such as VoIP and broadband Internet connectivity.

Infrastructure: Includes data center, network and virtualization services that provide your customers with IaaS (e.g., compute, storage, public and private clouds, disaster recovery, virtual desktop infrastructure (VDI), Web hosting and more).

Business Applications: Includes cloud-based SaaS applications for business automation, business intelligence, business services, document management, human resources management, medical and productivity.

Security: Includes network and email protection, Web filtering, log management, single sign-on and much more.

In every category, simplified contracting and channel discounts enable you to earn healthy margins while increasing your ease of doing business.

Welcome to Ingram Micro Cloud
